- What makes PATETE's designers different from other kitchen and bath center planners?

What makes you different from other centers?

Our staffs' mission is to help YOU create the MOST attractive kitchen or bath for your home. At other centers you are left on your own, or the planner helps as best as they can while helping anyone else who comes into that department , or they send you all over town to find materials. At PATETE, you get a professional interior designer who works with you, one on one, to help you decide on the material selection and color coordination. In addition, you won't be running all over town to make material selections because it is all in our 3 selection rooms. You can select the cabinets, counter surfaces, sinks, faucetry, fixtures, hardware, ceramic tile, floor coverings, paint, wall and border covering for the kitchen or bath. YOU DON'T HAVE TO GO ANYWHERE ELSE!

Because your projects are custom does it mean you're expensive?

Custom doesn't necessarily mean expensive. Custom just means quality. We do projects in every neighborhood in the tri-state area. You name the neighborhood and we have worked there!

What does "CUSTOM CREATION TO INSTALLATION" mean?

It means from our first visit to your home when we take a complete survey of your design problem to the final installation of your completed new kitchen or bath, we take pride in making sure that we are there for you on every detail of the project.

When PATETE is doing my job who do I talk to if I have questions?

You will be assigned a job coordinator who will have constant contact with you. He will be there to answer any and all of your questions.

What makes PATETE's designers different from other kitchen and bath center planners?

At PATETE, you will work with a professional kitchen and bath designer; NOT a kitchen and bath planner that took a seminar to become qualified to lay out your kitchen or bath.
